PEDAGOŠKI SADRŽAJ (KLJUČNI POJMOVI):

- NATO fonetska abeceda
- Sricanje riječi u komunikaciji

POTREBNO PREDZNAJJE:

- -

ISHODI UČENJA/KOMPETENCIJE:

UČENICI ĆE MOĆI:

- Naučit koristiti fonetsku abecedu
- Izbjeći pogreške u komunikaciji

OPIS AKTIVNOSTI / NASTAVNI SCENARIJ:

PRIPREMA

Učitelj ispisuje fonetsku abecednu karticu za svakog učenika

PROVEDBA

 #1: Učitelj predstavlja fonetsku abecedu i njezinu povijest (kada, zašto, tko ...). Cilj je jednoznačna i što jasnija komunikacija u prisutnosti radio smetnji ili drugih loših audio uvjeta.

 #2: Izgovaranje abecede u učionici, svaki učenik pojedinačno, birajući slova naizmjenice. Ponavljanje iznova i iznova. Koncentrirati se na ona koja su učenicima najteža, ne na ona u koja su sigurni. Vježbanje dok je učenici ne usvoje do nivoa automatiziranog izgovora.

 #3: Učitelj sriče svoje ime pa nakon toga učenici sriču svoja imena.

 #4: Učitelj izabire 10 nasumičnih riječi koje će učenici sricati koristeći fonetsku abecedu.

 #5: Koristiti aktivnost za domaću zadaću ili za izvanučioničke aktivnosti. Povremeno se vratiti na abecedu za ponavljanje i vježbu.

The ability to communicate and make yourself understood can make a difference in life-threatening situations – imagine for example that you are trying to alert a search and rescue helicopter of the position of a downed pilot. To ensure clear communication, NATO uses a number of well-known formats which are in general use. NATO standardization agreements enable forces from many nations to communicate in a way that is understood by all.

Some standards can be found in everyday civilian and military life. "Bravo Zulu", typically signalled with naval flags on ships at sea and meaning "well done", is also commonly used in written communication by the military, for example by replying "BZ" to an email.

Numbers

1	Two	Three	Four	Five	Six	Seven	Eight	Nine	Zero
One (<i>one</i>)	Two (<i>too</i>)	Three (<i>tree</i>)	Four (<i>four-er</i>)	Five (<i>ff</i>)	Six (<i>six</i>)	Seven (<i>seven</i>)	Eight (<i>ait</i>)	Nine (<i>niner</i>)	Zero (<i>zero</i>)

Phonetic alphabet

The NATO alphabet became effective in 1956 and, a few years later, turned into the established universal phonetic alphabet for all military, civilian and amateur radio communications.

International Morse Code

Morse code transmits text through on-off tones, light flashes or clicks. It was widely used in the 1930s for early radio communication, before it was possible to transmit voice.

Flaghoist communication

Ships use flags as signals to send out messages to each other. The use of flags, known as flaghoist communication, is a fast and accurate way to send information in daylight.

Semaphore

Semaphore is a system in which a person sends information at a distance using hand-held flags – depending on the position of the flags, the message will vary. The signaller holds the flag in different positions that represent letters or numbers.

Panel signalling

Panel signalling is a system in which a person sends information at a distance using a panel of lights. The signaller holds the panel in different positions that represent letters or numbers.

A Alfa (<i>ah-fah</i>)	B Bravo (<i>bravo</i>)	C Charlie (<i>char-lee</i>)	D Delta (<i>dell-tah</i>)	E Echo (<i>ech-oh</i>)	F Foxtrot (<i>foke-trot</i>)
G Golf (<i>golf</i>)	H Hotel (<i>hotel</i>)	I India (<i>in-dee-ah</i>)	J Juliett (<i>juh-lee-ett</i>)	K Kilo (<i>key-loh</i>)	L Lima (<i>lee-mah</i>)
M Mike (<i>mike</i>)	N November (<i>no-ven-ber</i>)	O Oscar (<i>os-cab</i>)	P Papa (<i>pah-pah</i>)	Q Quebec (<i>kch-beck</i>)	R Romeo (<i>rou-ne-oh</i>)
S Sierra (<i>see-air-rah</i>)	T Tango (<i>tang-go</i>)	U Uniform (<i>yoo-nee-form</i>)	V Victor (<i>vic-tah</i>)	W Whiskey (<i>wis-kee</i>)	X Xray (<i>eksk-ray</i>)
